3:45 pm – 5 pm USING SOCIAL MEDIA TO RAISE MONEY, RECRUIT VOLUNTEERS AND SAVE MORE LIVES

Emily Garman

Everything changes frequently in social media, and this seminar covers the latest changes on social networks, as well as software and tools that nonprofits need to know about. This seminar will teach you how to harness the tools and concepts of social media to accomplish your goals and help more animals in your program. This session is great for beginners as well as more advanced users, as it focuses on strategies and ways to use social media rather than just technical specifics. You'll see what other animal welfare organizations are doing to literally raise thousands of dollars a month using social media and to grow their volunteer and foster bases exponentially. You'll also learn about exclusive, non-publicized tools and resources available only to nonprofits that can make a huge difference in your online effectiveness. You don't have to be a technical guru or a Twitter expert for this session--all you need is an open mind!
